

# FOOD PROCESSING INDUSTRY SOLUTIONS

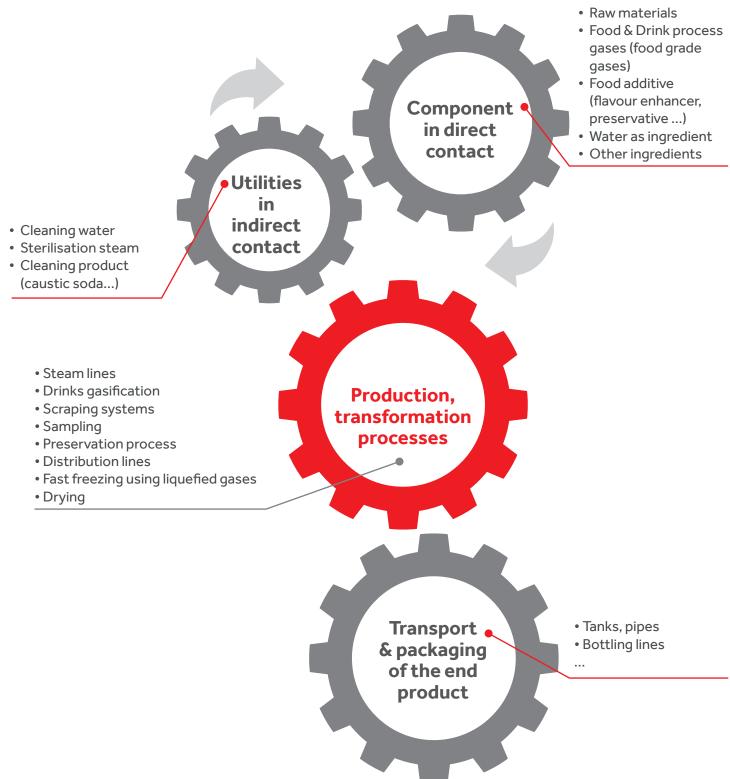

The **(EC)** N°1935/2004 regulation controls the food and beverage industry market. This regulation sets the requirements to be applied for materials and articles intended to come in **contact directly or indirectly** with foodstuffs.

Foodstuffs are defined in article 2 of regulation **(EC) n° 178/2002** : beverages, chewing gums and any substance including water that is intentionally incorporated into food during its **production, preparation** or its **processing**.

SOLUTIONS FOR FOOD PROCESSING INDUSTRY

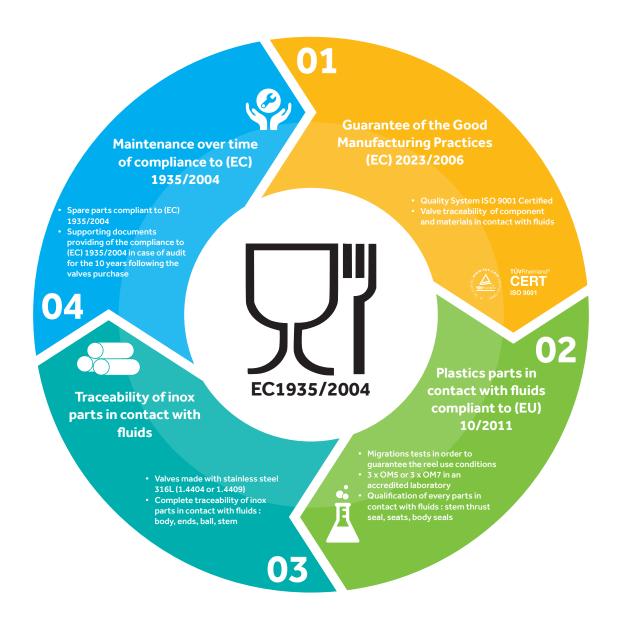

All equipments including valves are used during processes such as **food fast freezing** with liquefied gases, **steam cooking**, or **food sampling**.

Being in contact whether direct or indirect with foodstuffs, **these equipments are submitted to the (EC) n°1935/2004.** 

To meet the requirements of our clients, we offer a **complete range** of ball valves in **compliance with the (EC) n°1935/2004 regulation.** 

We also propose solutions for upgrade to compliance and maintenance of existing plants.

They trust us : Messer, Air Liquide, Tetrapak, Wrigley, Nestlé, GEA, Definox, SPX Flow, Pierre Guérin, Mars, Saipol, Maisonneuve

## **HIGH QUALITY BALL VALVES**

## PROCESS -20 ° C to + 121 ° C - ALL FOOD & INGREDIENTS (Liquids, Gas, Powders)

#### 3-piece ball valves - PN4 I

- For piping DN08 to DN200
- PN100 to PN16
- Ball internal roughness Ra 0.4 µm

#### Options

- Ends internal roughness Ra 0,4 µm
- True Bore version (pigging system)
- PTFE Cavity fillers
- Actuation

## PROCESS up to + 250°C - STEAM, OVERHEATED WATER, OILS

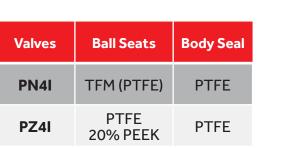

#### 3-Piece Ball Valves - PZ4 I

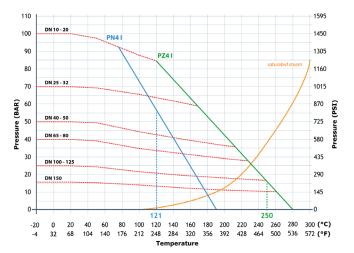

- For piping DN08 to DN200
- PN100 to PN16
- High Temperature Seats

#### Options

- Steam Jacket
- V-Ball version for regulation
- Design Double Block & Bleed

FDA compliant plastic materials 21 CFR Section 177.1550

## **Metallic Parts in Contact with**

## TOTAL QUALIFICATION OF PLASTIC COMPONENTS

Test Fluids A, B & D2 Tests Conditions OM5 & OM7 Multi-Contact Tests

## CO2 LIQUID for Gasification of beverages + Other gas between -50°C and + 121°C

#### 3-piece Ball Valves - PS4I PG and PY4 I

- For piping DN08 to DN200
- PN100 to PN16
- Functional EN1626 / -50°C
- Ball with upstream vent hole
- Body sealing <10-5 mbar / L.s-1

#### Options

• ADR Version - EN14432 For Tanks Transport

## FAST FREEZING LIQUID NITROGEN -200°C to + 121°C

**Ball Seats** 

TFM (PTFE)

PTFE

Carbon

(TF3215)

Valves

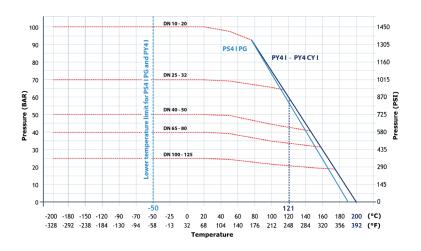

PS4 | PG

**PY4I** 

**PY4CYI** 

### 3-Piece Ball Valves - PY4CY I

- For piping DN08 to DN150
- PN100 to PN16
- Functional EN1626 / -196 ° C
- Ball with upstream vent hole
- Body sealing <10-5 mbar / L.s-1

## Fluids 100% Stainless Steel 316L

**Body Seal** 

PTFE

PTFE

## **MARKING & TRACEABILITY**

CE1935 label with valve batch number Delivered with CE1935 plastic parts certificate

## ACTUATED VALVES

#### **For Piloted Process**

- Double or Single effect Pneumatic Actuators, 500,000 cycles guaranteed
- Electric Actuators
- Limit switches, Solenoid valves ...

#### Options

• CNI® Nickel-PTFE Coated Actuator Aggressive environments (Cleaning agents ...)

## **SAFE ISOLATION & PURGE**

#### **Double Block & Bleed**

- Double isolation & Line Bleeding
- Safe Maintenance
- Steam and high Temperatures lines and / or Dangerous
- Piping DN08 to DN 200

## SIGHT GLASS

#### Visual fluid control - VC4 I

- PYREX glass
- PN7 to PN16
- Piping DN08 to DN65
- All Foods -20°C to +121°C

## **CHECK VALVES**

#### Non-return Solution - CL4 I

- Piston 316L & PTFE
- PN80
- Piping DN08 to DN65
- All Foods -20°C to +121°C
- Liquid Nitrogen and CO2 up to -196 ° C

## **MAINTENANCE & COMPLIANCE INSTALLATIONS**

#### CE1935 Maintenance kit

- Plastic Sealing Parts
- Stainless Steel Label with Traceability
- Certificate of conformity CE1935 plastic parts

## **CONTROL & REGULATION**

#### Flow / Pressure Control Solution - V-Bal

- V30° or V60° ball
- Manual or Actuated
- Tight in closed position
- 2 times less pressure drop than a standard control valve

**JACKETED VALVE** 

## **FLUSHING VALVES**

# Solution for Maintaining temperature (Chocolate, chewing gum ...)

- Steam Jacket up to 25bar
- Compatible with Steam and Thermal Oils
- Available in PZ4I CE1935 range

### **Tank Bottom Solution**

- No dead volume in the tank
- Available in PN4I and PZ4I CE1935 series
- Also available in steam jacket version

#### Pick-up valve

- No dead volume in the line
- Available in PN4I and PZ4I CE1935 series

### Valve Body Kit Boxes CE1935 (PN4 I, PZ4 I, ...)

- Stainless steel valve body ready to install
- 100% compatible with Meca-Inox body in place
- Certificate of conformity CE1935 plastic parts

Meca-Inox Body CE1935 compatible with others marks of valves for conformity of installations, consult us.

## HIGH QUALITY BALL VALVES

## BORN IN FRANCE, WORLDWIDE AVAILABLE

Since 1967, MECA-INOX has manufactured ball valves and is a European leading signature for high quality ball valves dedicated to Chemistry, Pharma & Cosmetic, Cryogenic fluids, Food & Beverage and Industry with more than 3 million valves installed all over the world and 150 000 ball valves yearly production.

Expert in stainless steel and carbon steel ball valves technology, we have developed over the years a complete products offer internationally recognized for its reliability, performance, and flexibility of use. Combining high quality materials and our specific knowhow of design and manufacturing, our products meet the most stringent requirements.

From our industrial sites of Gisors (France) and Dalian (China), our teams can support you anywhere in the world. Our network of distributors provide an optimal availability of our valves and equipment for your international projects.
